

Avira Antivirus Pro

So much security is a must

Avira Online Essentials - The latest generation of security: This platform enables centralized management of all devices via the Internet

Online Essentials stands by you as an ingeniously useful and practical companion: Its clearly structured user interface can help you maintain an overview of the security status of all of your devices and also manages PCs, tablets and smartphones from family members and friends as well.

- **Antivirus:**
Overview of all the products used, their security status and report functionality
- **Anti-Theft:**
Localizing your own device and many other useful functions
- **Managing your friends' devices**
Supportive assistance for family and friends

Surf, shop, communicate – Do whatever you want without having to think about viruses! Avira's fast malware protection with award-winning detection technology provides the necessary security for your PC. Better still: Your personal data also remains safe – for example, from web trackers who monitor your browsing habits, or from unsolicited promotional messages that keep popping up.
